

Assessed Control of Terrain in Ukraine and Main Russian Maneuver Axes as of April 06, 2022, 3:00 PM ET

* Assessed Russian advances are areas where ISW assesses Russian forces have operated in or launched attacks against but do not control.

Note: The disorderly withdrawal of Russian forces from around Kyiv makes precise mapping of the situation in Kyiv, Chernihiv, and Sumy oblasts difficult. There are likely no organized Russian defensive positions in those oblasts, but Ukrainian forces are conducting operations to clear "lost orcs"--Russians left behind in the withdrawal. We will not attempt to map those clearing operations. Ukrainian forces may already have regained control of more of Chernihiv and Sumy oblasts than we depict, but we do not yet have sufficient evidence to adjust our assessed areas of advance beyond those shown here. The situation will likely clarify over the next few days, and we will adjust the advance and / or control lines accordingly.
