

8.2.39 Nuix Discover

Nuix Discover

Nuix Discover delivers end-to-end eDiscovery without compromise. Nuix Discover combines the world's leading eDiscovery processing, review, analytics and predictive coding in one software solution to help you uncover critical details faster and integrate them into your strategy for litigation and regulatory cases. Nuix Discover gives you the processing, analytics, review and automation power you need to master the details of any legal matter, no matter how large, challenging or complex.

THE NUIX ADVANTAGE

- Amazingly fast review. Nuix Discover's intuitive user interface and intelligent automation capabilities allow legal teams to dramatically improve the speed and quality of document review while delivering profound time and cost savings.
- Analytics included. Nuix Discover has a fully integrated analytics suite included in the base licence, so all members of your legal team can use advanced data visualisations and everyday analytics to find key facts and patterns more quickly.
- Built for your business. Nuix Discover helps you manage all your litigation projects using multi-tenancy reporting and tracking; rapid start-up, training and support; and cross-functional eDiscovery workflows that make you more efficient and productive.

GET STARTED SOONER

With processing, analysis, review and production fully integrated into Nuix Discover, you can quickly ingest data and start reviewing in minutes – no load files, no exports and a full portfolio of analytics and visualisations.

FIND THE FACTS FASTER

Incorporate analytics into your everyday initial and linear review workflows to figure out what's going on and define your case strategy. Industry-best models for clustering, mapping and graphing distil the whole case into easily understood 'a-ha' moments. Nuix Discover's machine learning capabilities mean every time you make a coding decision, your next review assignment is more relevant.

BREEZE THROUGH REVIEW

Escape the repetitive grind of linear review and make faster decisions in a single view. Nuix Discover's patented user interface uses visual cues and continuous active learning to ensure reviewers can quickly identify relevance and privilege without needing to search for information from hidden windows, tabs or other inefficient UI mechanics.

CALL THE SHOTS

Manage the eDiscovery process end to end with full control over your data and workflow, including self-service case set-up and administration. Even for the smallest matters, you get all the analytics, review efficiencies and production capabilities at your fingertips.

SCALE SEAMLESSLY FROM A SINGLE PST TO 100 MILLION DOCUMENTS

Nuix Discover is designed for scalability in data volumes and number of users. No matter how big or small the case, you can automate the way information is processed, organised and presented to reduce operational costs and simplify hand-offs.

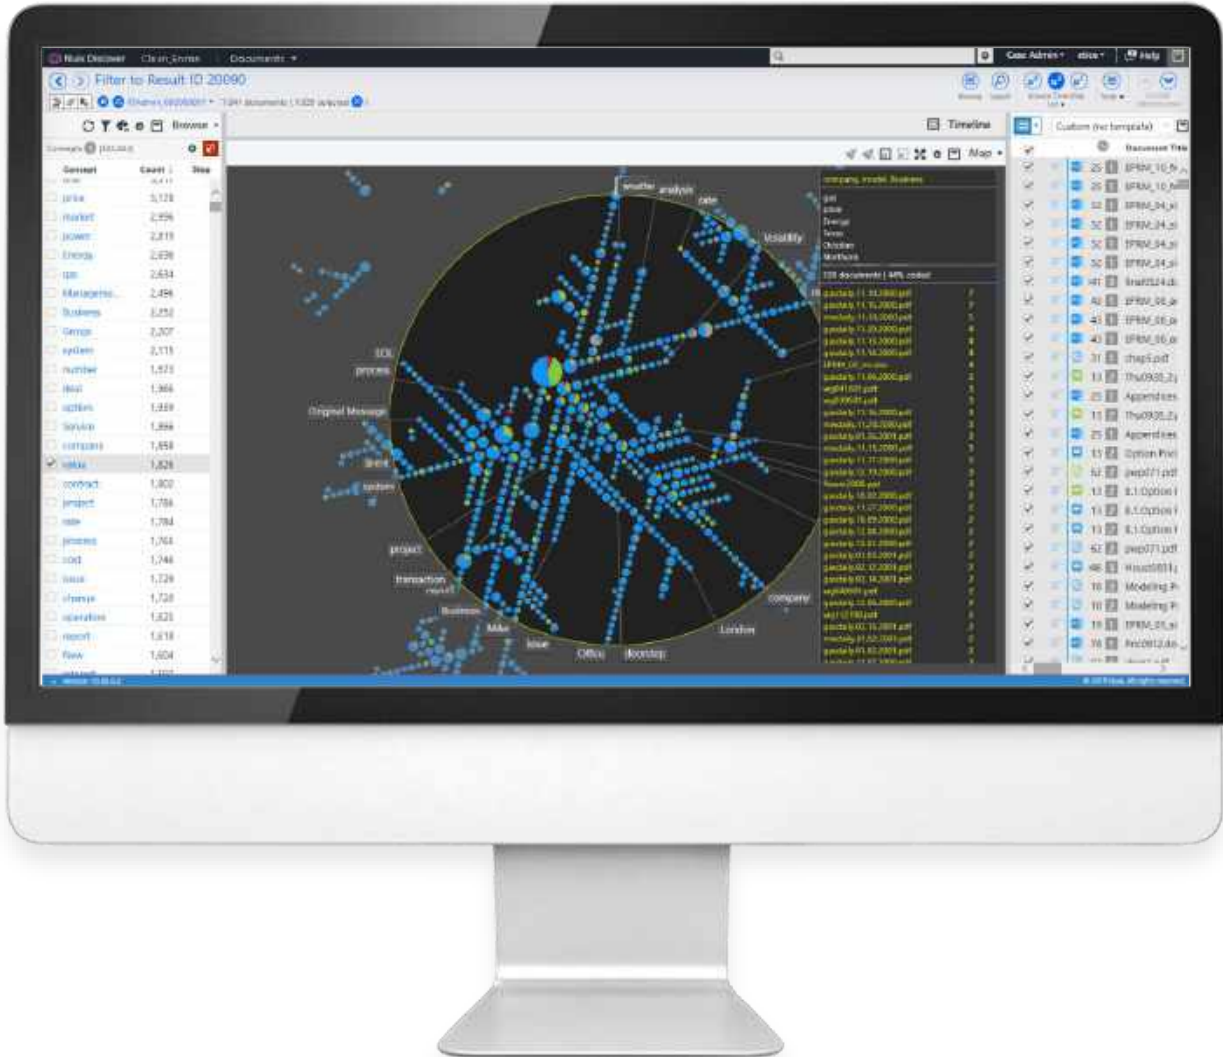

BETTER PROCESSING = BETTER REVIEW

With Nuix Discover, you don't have to worry about the other side having better data or surprising you with evidence you've never seen. You'll never miss a shred of evidence using our industry-leading processing, analysis and review capabilities.

FLEXIBLE DEPLOYMENT OPTIONS

Run Nuix Discover where and how you want, in your data centre or the cloud, using on-premise or hosted options. Whichever option you choose, you'll always get access to the latest features, innovations and operational efficiencies.

Nuix Workstation

Process, search and analyse unstructured and high-volume data with unmatched speed and precision.

Understanding data is not getting easier. Growing numbers of evidence sources, file formats, devices, cloud services and storage techniques make the task ever more complicated. Nuix Workstation is the world's leading technology for extracting intelligence from high-volume unstructured, semi-structured and structured data. It provides unmatched speed, scale and accuracy to processing, searching, indexing and analysing the information you need.

THE NUIX ADVANTAGE

- **Get the big picture, fast.** Quickly and comprehensively answer the fundamental questions of any matter and make early case assessments with all the facts at your fingertips.
- **Mitigate risks.** Nuix Workstation delivers a consistent, repeatable and forensically defensible process across each item and data source.
- **Empower your experts.** We provide insights like no other technology, revealing and contextualising the stories hidden in data.

- **Capture everything.** Nux Workstation's efficient and scalable processing turns more than 1,000 file formats and source types into meaningful information, capturing the content, metadata and context of each item.
- **Use one tool for multiple use cases.** Our customers use Nux Workstation for litigation, forensic investigations, information governance, government oversight, mergers and divestitures, compliance, data and email migrations and regulatory enforcement and response.

INVESTIGATIONS

Nux Workstation helps law enforcement, government and corporate investigators extract, correlate, and contextualise data so you can make fast, accurate decisions. We help you filter out meaningless data and find the key facts.

LITIGATION

Nux Workstation delivers consistent, repeatable and defensible eDiscovery workflows that scale from a single workstation to a global enterprise. You can shorten the time to early case assessment, minimise review and production volumes and uncover connections that strengthen the case.

INFORMATION GOVERNANCE

Nux Workstation provides information transparency into enterprise content so you can mitigate risk, respond to regulations, tackle audit and compliance needs and manage information from creation to disposition or remediation.

DISCOVERY AND INFORMATION MANAGEMENT SERVICES

Service providers and advisory firms use Nux Workstation for client projects that need fast, accurate processing of vast, complex data sources. You can leverage the same software for value-add projects that enable your clients to reduce costs, mitigate risks, improve governance and make better business decisions.
