

### 8.2.48 TransCEND (a TransPerfect Legal Solutions Company)

TransPerfect is the world's leading provider of language services and technology solutions. Our proprietary legal exchange platform, TransCEND, enables firms to share files in a completely secure environment. Offering the industry's fastest repository creation, 24/7/365 support, and multijurisdictional hosting capabilities, TransPerfect is a trusted partner for every Am Law 200 and Global 100 law firm, as well as the majority of Fortune 1000 corporate legal departments.

Some of the enhanced features that we provide:

- Increased Security – Most secure platform on the market with SSAE 16 SOC 2 hosting, advanced intrusion detection, multi-factor authentication and IP filtering capabilities
- Document Protection – Industry leading Information Rights Management (IRM) capabilities that can disable screenshots, copy & paste, snipping, printing and downloading
- Business Rules Engine – Ability to create custom business logic that can be triggered based on metadata coded for documents, providing contract management capabilities
- Automated Version Control – Ability to check-in/out documents and utilize Open-In-Office protocols to edit and version Microsoft Office files directly through the application
- Custom Metadata Fields – Fully keyword searchable dropdown menus, radio buttons, check boxes, calendaring options and text fields associated with individual documents
- Multilingual User Interface – Stakeholders from different regions can review the user interface in their own languages which increases usability for non-native English speakers
- Simplified Invite Process – Bulk invitations can be sent from the system to all the authorized parties simply by copying & pasting recipients' email addresses into our system
- Built-in Redaction – Ability to black out, highlight or annotate text using our built-in redaction system and grant users access to native documents or the redacted versions
- Usage Activity Reports – Includes advanced features such as data filters and report previews. Export reports to the program of your choosing (CSV, XLS, DOC, PDF)
- Email Documents – Documents can be emailed directly to the application index as attachments where they can be dragged and dropped into the appropriate folders
- Communicate – Communicate important information to individuals, groups, or organizations through the secure email system and Q&A module directly from the workspace
- Advanced Search – Ability to conduct Boolean & Lucene searches using custom operators and save both private & public search results to come back to them in the future
