### 8.2.3 Bundledocs

Bundledocs Electronic Document Bundling Software:

Bundledocs is the ultimate document bundling software and provides law firms and legal departments with everything they need to get the job done.

Effortlessly prepare quality professional briefs, reports, eBooks or document bundles in minutes. Simply take a load of documents from your folder, Case or Document Management System. Bundledocs organises them into a neat, numbered, sectioned bundle in minutes – ready to save, share or print. No matter how big or small, you can change in seconds. Simple, easy to use, time saving and massively efficient.

With powerful technology underlying our functionality, Bundledocs helps alleviate common pain points such as:

- Production of Large Bundle
- Table of Content Creation
- Pagination and Late Inserts
- Document Manipulation
- Secure Sharing and Collaboration
- OCR
- Redaction and Annotations

Our cloud first technology provides users with a secure, stable platform for the creation of any size bundle – large of small. Our unique approach means that resources are added when needed meaning you don't have to worry about slow PC's, systems stalling and crashing or the file sharing limitations of your email.

Collaborative working is easily accommodated so you can work with colleagues in different offices, securely share bundles of any size with clients, or even collaborate with any third party. You even have the ability to make annotations public or private which is ideal when working with others.

Bundledocs has an open API allowing us to seamlessly integrate with your system. We already integrate with leading systems including: iManage, NetDocuments, Tikit TFB, Timeslice, Actionstep, Worldox etc.

The best bit? Bundledocs is software you'll love using. It's incredibly simple and easy to use. No need for long laborious training sessions. No need to wait for install and setups. Just pick it up and go!

Owned/Supplied by :	**Bundledocs**
Used by :	**iManage, NetDocuments, Tikit TFB, Timeslice, Actionstep, Worldox, a large number of law firms.**
