

8.2.27 KNOVOS Software eZReview

**eZReview: eDiscovery Made Easy**

eZReview, Knovos' holistic eDiscovery platform, enables insightful early case assessment, powerful processing and production, and simplified document review and analysis. eZReview is powered by Knovos' advanced analytics engine, which enables multidimensional data analysis and technology-assisted review (TAR).

eDiscovery life cycle with  eZReview®

**Solution Benefits**

- All-in-one eDiscovery platform
- Capable of ingesting hundreds of file types, including structured and unstructured data
- Intuitive, easy-to-use interface enables strategic document analysis, prioritization, and identification
- With TAR, document review is now much quicker, optimizing the entire eDiscovery process

**Early Case Assessment**

- ✓ Advanced filtering techniques
- ✓ Multidimensional analytics
- ✓ Multi-matter knowledge repository
- ✓ In-depth content analysis
- ✓ Instant data visualization
- ✓ Project cost estimates and budget reporting

**Processing and Production**

- ✓ Wide multilingual support
- ✓ Flat file processing
- ✓ Processing of multiple data types

## Chapter 8 – Supplier & Software Details

---

- ✓ Global and matter-level dashboards
- ✓ Standardized load templates
- ✓ Process visualization
- ✓ Complex processing algorithms
- ✓ Structured and unstructured data handling

### Document Review

- ✓ Inclusive redaction and annotation capabilities
- ✓ Two-factor authentication
- ✓ Customized review workflows
- ✓ Robust searching capabilities
- ✓ TAR, with continuous active learning (CAL)
- ✓ Role-based user access
- ✓ Privilege log management
