

8.2.5 Case Logistix

Case Logistix is a robust document-review and production platform offering you a quick, simple, and accurate way to review electronically stored information (ESI) and traditional "paper" throughout the discovery process.

Case Logistix makes it easy to meet the challenges of eDiscovery.

- **Intuitive Design:** Case Logistix looks and feels like other common office tools.
- **Native Review:** Case Logistix lets you review documents in native formats, maintaining key formatting and metadata.
- **Flexibility:** You can customize Case Logistix to meet the need of the case – rather than forcing the case to adjust to the application.
- **Scalability:** Built on a Microsoft® SQL database foundation, Case Logistix can scale from single-server/desktop configurations to robust multi-server solutions storing many millions of documents.
- **Security:** Control security at folder, document, data, and functional levels, ensuring that users see only what they need to see and do only what they need to do.
- **Global Capabilities:** Case Logistix is Unicode-capable, allowing you to find and review foreign language documents and localize to particular languages.
