<p><u>Company Description</u></p>	
<p>Lighthouse provides software and services to manage the increasingly complex landscape of enterprise data for compliance and legal teams. Lighthouse leads by developing proprietary technology that integrates with industry-leading third-party software, automating workflows, and creating an easy-to-use, end-to-end platform. Lighthouse also delivers unique proprietary applications and advisory services that are highly valuable for large, complex matters, and a new SaaS platform designed for in-house teams. Whether reacting to incidents like litigation or governmental investigations, or designing programs to proactively minimize the potential for future incidents, Lighthouse partners with multinational industry leaders, top global law firms, and the world's leading software provider as a channel partner.</p>	
<p><u>Vendor Offerings</u></p>	
<p>Lighthouse provides software and services to manage the increasingly complex landscape of enterprise data for compliance and legal teams, whether they're reacting to incidents like litigation, government, or internal investigations, or designing programs to proactively uncover the potential for future incidents. Through our best-in-class expertise, Lighthouse stands apart as a leader in industry best practices and workflows. Our proactive, high-touch approach has enabled us to build enduring partnerships with the most respected corporations and law firms around the globe.</p>	
<p>Lighthouse offers a full spectrum of capabilities to support a wide range of discovery services.</p>	
<p><b>Information Governance and Advisory Services</b></p>	
<p>Lighthouse Advisory Services consult clients on the identification and remediation of legal and compliance risk associated with information and technology. Common topics include records management, data classification, data protection/privacy, data disposal and data migration. Emerging areas include those related to cloud migration (e.g., Lighthouse's M365 CloudCompass) departed employee monitoring, shadow IT, dawn raid preparedness, and operating model enhancements.</p>	
<p><b>Data and Computer Forensics</b></p>	
<p>Lighthouse's dedicated forensics team has deep expertise in global collection and forensics services including, but not limited to, on-site collection, remote collection, cloud-based and social media collection, forensic analysis, and testimony. Lighthouse provides a comprehensive range of Data Collection/Forensic Analysis including the following: full service, onsite collection; remote collection; and supervised self-collection. Our collection offerings accommodate any desired methodology (forensic imaging, targeted collections, etc.) and virtually any data source or computing platform.</p>	
<p><b>ECA and TAR</b></p>	
<p>Lighthouse delivers several intelligent review enhancements designed to increase reviewer efficiency: ECA, advanced analytics, predictive coding, continuous active learning (CAL), and TAR consulting services. These solutions provide a more economical, faster, and more accurate way to review a large volume of documents (50,000+) than linear review. Lighthouse utilizes an ECA workflow that combines</p>	

Relativity, Brainspace, and Big Data Analytics. The result is a strategically targeted yet comprehensive approach to ECA.

### **eDiscovery Services**

Lighthouse offers a full spectrum of capabilities to support a full range of eDiscovery services, including identification, preservation, collection, ECA, processing, analysis, TAR, review, and production. For review, Lighthouse uses Relativity along with its proprietary suite of applications, SmartSeries, which includes the following tools: ReviewSmart™, ChatSmart™, PrivSmart™, and RedactSmart™. In addition, Lighthouse offers Spectra, a proprietary self-service SaaS tool, ideal for internal investigations and smaller matters where in-house experts do not need full-service support but want access to industry-best tools and capabilities and expert resources available to support and supplement them, as needed.

### **Document Review Services**

Lighthouse offers a consultancy led approach to managed document review which is built on the maximisation of available technical methods augmented with a minimal level of human input for an added element of quality control. Lighthouse utilise a range of subject matter experts (legally educated paralegals and qualified lawyers) with a previous track record in review and redaction exercises to expedite the review and reduce costs. Lighthouse also provide a bespoke review consultancy service which covers comprehensive review management, the drafting and provision of project specific briefing documents and the compilation of formal PII protocols. Lighthouse can provide managed review assistance across a range of matters including; translation exercises; review exercises, due diligence projects and DSARs.

### **Smart Innovation**

At Lighthouse, we have built a culture of innovation – it's at the heart of everything we do. We simplify complex problems using a combination of proprietary innovations and best-in-class, third party technologies, leading to new and better solutions for our clients.

### **Enduring Partnerships**

Our clients have been relying on us as technology and service partners for more than 20 years. In addition to innovative technologies, we deliver extraordinary transparency, control, and flexibility to our clients, together with a proactive and high touch service, seeking to delight our clients, develop durable and efficient information governance and eDiscovery programs, and form long-lasting partnerships.

### **Best-in-Class Expertise**

Our team has collectively worked on thousands of matters with clients including the world's largest technology, pharmaceutical, financial services, and retail firms. Lighthouse has long-term partnerships with these multinational companies because we provide expert advice at the forefront of best practices and workflows. We continuously train and develop our teams, broaden our experiences, and deepen our knowledge to offer an elevated level of guidance.
