### *Complete Consulting*

Proven technology-enabled expertise to create efficiency, reducing risks & costs in legal operations. From the increased pressures of new data security & privacy regulations to the need to proactively manage large volumes of small matters, corporate legal departments today are being challenged more than ever. Addressing multifaceted needs requires a solid strategic footing, tactical expertise born from historically-proven approaches, an applied knowledge of the right tools and workflows to employ at the right time. Consilio Complete Consulting delivers proven technology-enabled expertise and advisory services to help legal departments solve their most pressing challenges. Consisting of one practice bringing together experts in data forensics, law department operations and eDiscovery processes. We first start by taking a holistic, stakeholder-centric approach to understanding your current state, challenges, and only then proposing best-fit approaches to help your organisation move forward.

### *Complete Review*

Expert, defensible review solutions that increase quality, efficiency, and cost savings. With 73% of all eDiscovery costs attributed to review, document review is the most expensive and time-consuming component of any eDiscovery exercise. Larger data sets and more complex data types, like short-messaging and audio drive costs higher. Consilio Complete Review meets these demands by blending our global network of in-region review experts, proven review workflows, flexible and secure technology infrastructure along with our network of thousands of screened legal professionals capable of quickly staffing the review with the right resources. Clients, depending on their internal or legally-mandated requirements, can choose from any of our review centres or establish a temporary on-premise review centre at any desired location. With over 16+ years of proven review management expertise over thousands of engagements, Consilio is consistently trusted to solve the toughest review challenges and deliver.

### *Secure Virtual Review*

Secure review alternative, providing qualified specialised reviewers virtually working from remote locations synchronously to achieve high-quality and faster ramp times. From rapidly developing global investigations to high technology IP litigation, law firm and corporate clients often require reviewers under challenging circumstances such as accelerated time scales or specialised expertise requirements. To meet these challenges, clients can incur substantial costs, and experience delays as the right personnel are identified and repositioned to secure client or review partner sites. Consilio's Secure Virtual Review, powered by Complete Review, provides a compelling, secure virtual review alternative to this traditional approach. Not bound by any specific client or Consilio review location, pre-screened qualified legal professionals are quickly engaged on projects operating within in a highly secure, virtual review environment. Consilio's review managers, licensed attorneys with specialised expertise conducting virtual review projects, manage reviewers to deliver a high-quality, consistent work product while controlling costs.

### *Complete Flex*

Training, infrastructure, technology & support — custom-designed to fit your organisation's needs. Have power users that want to process and upload data? Need our support team to handle overflow administrative tasks? Complete Flex provides cost-savings and support infrastructure when and where you need it

without burdensome terms, associated costs or compromising on quality or innovation.

### *Complete Chat*

Seamlessly review multi-modal global communications. Consilio Complete Chat offers a comprehensive solution to processing a multitude of formats and preparing short messages for review. Consilio's end-to-end solution enables an efficient and accurate review of short messages to lower overall project costs.

### *Complete Audio*

Focus on the seconds that matter, with a complete audio solution to processing, search, review and production. From voicemails, trading calls to customer service recordings and beyond, organisations today are preserving massive amounts of audio data. Discoverable in litigation and regulatory investigations, significant challenges arise for corporations and their external counsel due to the sheer size and proprietary formatting of audio files. Consilio Complete Audio is our comprehensive solution to meet these challenges, based on years of knowledge and experience, gained from supporting some of the largest global institutions and their external counsel.

### *Complete Investigations*

Supporting corporate investigations & compliance challenges—from strategy to implementation. The convergence of matters of all sizes, sensitive business matters and tight timelines provide corporate clients with unique challenges when responding to investigations and compliance matters. Consilio Complete Investigations provides sophisticated data analysis technologies, proven workflows and expert assistance. We have developed sound compliance and investigation strategies that enhance legal and regulatory compliance, lower downstream eDiscovery and storage costs, protect and secure sensitive data, and foster productivity and collaboration.
