Company Description

Data Narro is a U.S.-based digital forensics and eDiscovery consulting firm servicing clients in Chicago, Milwaukee, Madison, and the Upper Midwest. We help law firms, businesses, and government agencies preserve, collect, and search electronically stored information for the purposes of investigation and litigation support. We also advise law firms on the implementation of smart eDiscovery practices and processes, including ESI protocol authoring, meet-and-confer consulting, and ESI collection strategies.

Vendor Offerings
