

Collect, Preserve, Review

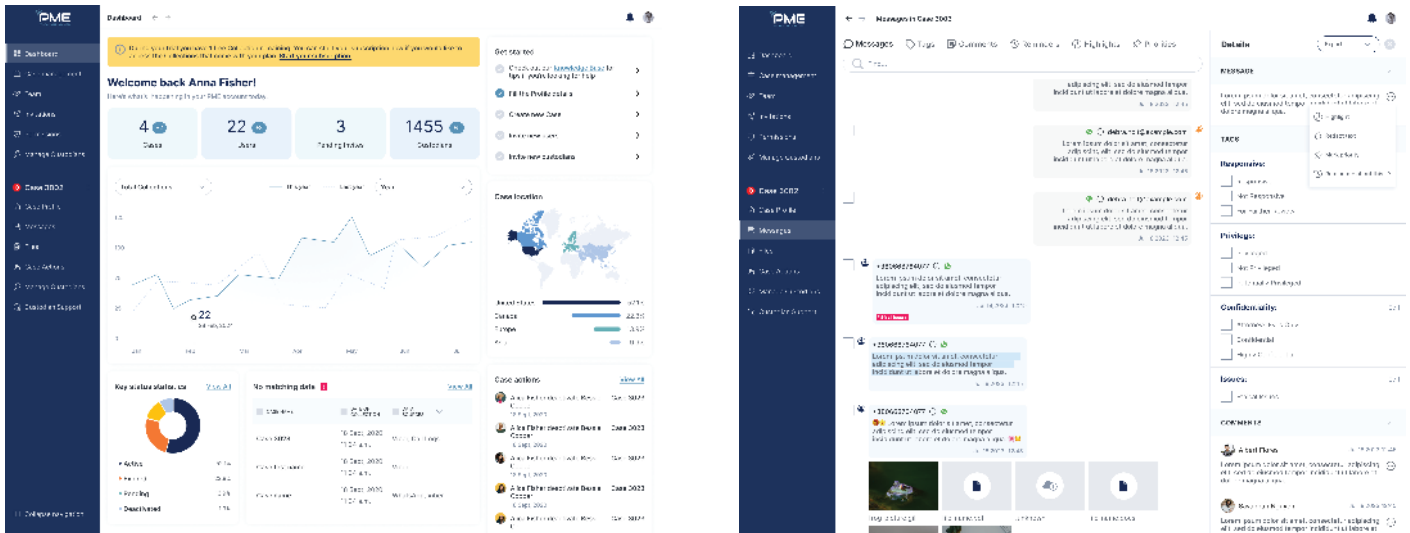

Mobile Collection & Review

Starting at \$395

Targeted remote mobile collection, on-line review,
data archival, and export to 3rd party tools.

SMS, iMessage, Chat Apps, Email, Media & More

Targeted Remote Collection

No more shipping collection kits, dispatching techs, or taking devices away from custodians. Reduce costs and time to discovery by collecting only the data you need while protecting custodian privacy.

Regional Data Storage

Maintain compliance and privacy with per-case data localization. Store your case data in multiple geographic regions while managing and accessing it all through a single site.

Online Review & Admin

Review case data from anywhere using only a web browser. Highlight, comment, redact, tag, and export data in several common formats. Powerful search tools to quickly surface relevant data.

Defensible & Secure

The security and privacy of your data is our paramount concern. We provide strong data encryption, robust user access management, digital signatures, and configurable data retention policies.

Data Sources In Reach

PME supports both iOS and Android based mobile devices and allows for collection from a growing list of data sources including Call Logs, Contacts, SMS, iMessage, WhatsApp, WeChat, Line, Viber, and more.

Custodian Support Tools

Session recorder allows you to view and replay your custodian's collection session to provide technical support and visual collection process validation.
